#### Library of Congress Cataloging-in-Publication Data

Encyclopedia of Internet technologies and applications / Mario Freire and Manuela Pereira, editors.  
p. cm.

Summary: "This book is the single source for information on the world's greatest network, and provides a wealth of information for the average Internet consumer, as well as for experts in the field of networking and Internet technologies. It provides the most thorough examination of Internet technologies and applications for researchers in a variety of related fields"--Provided by publisher.

Includes bibliographical references and index.

ISBN 978-1-59140-993-9 (hardcover) -- ISBN 978-1-59140-994-6 (ebook)
